ICC Ups Area's Water Rates 21%

Company Had Sought 47% Boost; Ruling Ends Year of Hearings

An increase averaging slightly more than 21% in water rates of the East St. Louis & Interurban Water Co. was authorized at Springfield Tuesday by the Illinois Commerce Commission.

A spokesman for the commission said the rate increase would raise the average household's water bill from \$1.68 per month, and that the additional revenue will give the utility a rate of return of 6.59%.

The new rate schedule will become effective June 1. Charles M. Kenny, ICC examiner, pointed out that the 21% rise is an overall average figure and that rates will vary in different areas.

The ruling in the case ended nearly a year of hearings in which a number of Madison county communities served by the water district, including Granite City, Madison and Venice, protested the water company's petition for higher rates.

Sought 47% Rise
The water company had sought a rate increase of 47% in its original petition filed last June.

An increase in the differential between low-lying and higher areas is included in the overall average boost, the ICC examiner said. Presently this variation is about four cents per 100 cubic feet of water.

The ruling provides a differential of from 5.5 cents to six cents. The company had sought a variation of from five cents to 24 cents. Under the new schedule, for example, consumers in the low areas, including the Quad-Cities, who now pay 63 cents per hundred feet, will pay 79 cents for the first 300 feet and 60 cents for the additional 300 feet. Consumers in the highland (Belleville) areas will pay on a schedule of about six cents higher than those rates.

Kroger Strike Ends, Drivers Back to Work

Kroger Co. truck drivers, on strike since Feb. 10 in a dispute that shut down all 40 Kroger stores in the two-state metropolitan area, were returning to work today following ratification of a new 41-month contract yesterday afternoon.

The company announced its stores will reopen at 9 a.m. Tuesday.

The strike, which grew out of a disciplinary dispute over a driver's over-riding of a company contract, ended 200 Kroger employees. A total of 150 drivers was involved in the strike. The drivers are members of Teamsters Local 610.

Coke Ovens to be Topic of Public Meeting in GC

A public information meeting on operations of the coke ovens at Granite City Steel's blast furnace plant has been called for 8 p.m. next Wednesday in the third floor council room at the city hall by Prof. Erwin Hoelscher, technical secretary for the Granite City Air Pollution Control board.

Hoelscher said the public is invited to express views, and representatives of the steel firm have been invited to attend along with James Koehner, Belleville lawyer and member of the pollution control staff of Illinois Atty. Gen. William Scott.

"This is not a hearing, but a public information meeting requested by the city council last week after hearing a citizen's complaint against the coke ovens," Hoelscher said. At last week's meeting, he explained the plant's operation was in compliance with state standards.

City to Correct 'Uphill Drainage'

Removal of a 100-foot section of "uphill" drainage pipe on the south side of Ponton road was authorized Monday night by Granite City Village Board in continuing efforts to solve drainage problems in the Cloverview and Village lane areas.

The enormous installation of a section of the line was called to the attention of the council by John A. DeWald, president of Granite City Village Apartments, whose development of apartments south of Ponton road has been blamed for poor drainage in the area.

DeWald's finding was confirmed by the city engineer, and Street Superintendent Warfield was instructed to rip out the section of defective line with his crew or contract the job.

The engineer is to determine methods to eliminate blockage bends in a drainage line off Lydia lane, and referred to the Finance committee was a recommendation by the city engineer for a \$20,000 study to set up a sewer maintenance program to halt sanitary sewer breaks.

GC Auto Tag Arrests To Start June 1st

Granite City motorists who fail to display a city license sticker on Monday, June 1, will be arrested, Police Chief Veltzer stated today. The stickers must not only have been purchased by that date, but be prominently displayed, he stressed.

A four-week period of grace allowed by the department will expire on June 1, the police chief said. He urged motorists to obtain the \$3 stickers at the clerk's office in the city hall immediately, and avoid the long lines of last-minute purchasers which occur each year before the deadline date.

Extra personnel is on duty in the city clerk's office which will be open from 8 a.m. to 5 p.m. Monday through Friday. Police subjects will be set-up starting June 1, with those arrested subject to fines of \$5 to \$100, plus court costs, Chief Veltzer said. An estimate of 800 auto owners have purchased city licenses this year, compared to 14,500 sold in 1969.

'Friendly' Court Suit Planned on GC Chiefs

Council to File Suit Against City and Let Judge Rule on Issue

Granite City is filing suit against itself.

The action was authorized by the council Monday night to debate on the issue was mild as council members were on good behavior before a jam-packed house of high school civics students, although there was a brief encounter at the start of the meeting.

Hopfully, the courts—through a "friendly" suit—will end one phase of the council-mayor feud. Debate on the issue was mild as council members were on good behavior before a jam-packed house of high school civics students, although there was a brief encounter at the start of the meeting.

Maneuver Blocked
This was quickly squelched by City Atty. Scroggins, who pointed out the alderman should have brought the matter up before the official start of the May 18 meeting.

It was late in the session and most of the students had departed when Alderman Dawes, now chairman of the Fire and Water committee, asked—"Do we have a fire chief?"

At the May 4 meeting, the council rescinded its April 27 action on the confirmation of the mayor's one-year appointment of Fire Chief Fronabarger. A Mayor Partney promptly answered Dawes—"He's (Fronabarger) the chief."

Dawes turned to City Atty. Scroggins for a legal opinion. Scroggins replied there was a U.S. Supreme Court decision that appointment of a qualified individual to public office could not be withdrawn after he had entered upon his duties.

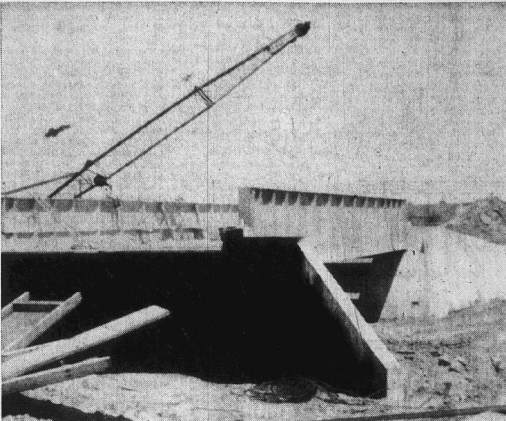

"We need that in writing," Dawes said.

Nonn argued that Mayor Partney "jumped the gun" in renaming Fronabarger in April when the fiscal year actually begins on May 1.

Nonn suggested the "friendly" suit. "The sooner we know who has the authority, the sooner we can stop nipping," he remarked.

Council members readily agreed. "Someone in the audience commented that he thought the city was broke and couldn't afford to spend money on a lawsuit against itself," when grown men should be able to work a solution themselves." He declined to give his name, saying, "this is just too disgusting."

Council members for a second time referred a salary increase ordinance for the police, fire and sewage treatment departments to the Finance committee.

BROADWAY UNDERPASS takes shape at Venice as steel girders are erected across the top of the structure. Trains will be routed across the top of the viaduct with rerouted Broadway carrying vehicular traffic through the underpass section visible at the lower right. Work is being done by Nelson Construction Co. of Clayton, Mo. Completion of the project with the Broadway relocation and paving is still a year and a half in the future.

Red Cross Aid to War Casualties Cited at Dinner

Work of Red Cross staff members and volunteers from this region was described by Virginia See, director of Scott Air Force Base Hospital Red Cross services, at the annual Tri-City Red Cross chapter dinner Tuesday evening at the Granite City Army Depot.

They arrange for the patient to telephone his family, explain with maps where he has been brought, and provide a variety of counseling and recreation services enabling each serviceman to make speediest possible recovery, reassured about his own condition and the welfare of loved ones, she said.

Mrs. See also recalled her experiences overseas as a Red Cross officer during three wars. She noted that the Air Force medical center at Scott includes an extensive tuberculosis division, open heart surgery, orthopedic services and emergency care of injuries.

She was introduced by Melvin G. Gilie, retiring chapter chairman, who presided. He presented a certificate to Mrs. Ruby Winters, recognizing her extensive service to the Red Cross, including the present chairmanship of volunteers and blood banks.

Builders Plan Suit to Halt Gas Tax Collections

A federal court injunction proceeding to prevent Madison and St. Clair county oil firms from paying gasoline taxes to the federal government during the freeze on highway construction in the bi-county area is planned by the Southern Illinois Builders Association. It was announced today.

Harold Gangeh, executive director of SIBA, said the suit will ask that tax collections be placed in escrow until the freeze, which already has cost the area about \$100 millions in highway construction, is lifted.

Gangeh said the federal government "is taking the taxpayers' money and giving them nothing in return."

Gangeh said SIBA officials have been informed that unless the highway freeze in the two counties is lifted soon, the funds available for highway construction, which come from gasoline taxes, may be diverted to other areas.

For that reason, he said, SIBA has instructed its attorney to prepare a suit seeking to enjoin oil firms from paying the tax to the government, and that the tax be placed instead in a fund for the area.

Earlier in the week the SIBA accused both the Republican and Democratic parties of a "lack of statesmanship" in dealing with "the freeze problem." Gangeh said, "It is long past time for the citizens of Madison and St. Clair counties to rise up and demand that the highway freeze be lifted."

The freeze was imposed in 1968 by federal transportation officials on grounds that not enough minority workers were being hired on highway projects and that construction costs in the area were too high.

A plan advanced by Illinois Gov. Ogilvie to end the freeze has been approved by the SIBA and the Metro-East Labor Council, but has been rejected by labor union leaders.

Business Playing Big Part in Move To Save GC Depot

A charge by Charles E. Hoskin III, retired Army colonel and former commander of the Granite City Army Depot, that Quad-City area business and industrial interests have given virtually no support to a move to prevent a shutdown of the depot was described as "ridiculous" yesterday by Granite City Mayor Donald Partney.

Area civic leaders made up primarily of representatives of business, industry and labor communities have conducted an unceasing campaign to bring about revocation of the depot shutdown order since March 5, the day after the U. S. government announced it planned to phase out the Army Depot operation was made known, Partney said.

That campaign was begun long before SODA came into existence, the mayor said. SODA is the "Save Our Depot Association" organized recently with Hoskin as its executive vice-president and with the announced objective of coordinating area-wide efforts to prevent the depot closing.

Hoskin, who now lives in East St. Louis and is the only full-time employee of the association, served as commander of the Army Depot from 1966 to 1969. He said his organization has "most of the ingredients necessary to make Washington respond to a plea to keep the depot operating." He charged, however, that "business and the big corporations are missing" in the move to save the depot.

Partney said that "the day after the government announced its planned shutdown of the depot, I set up a committee that includes a cross section of area interests—including business and industry—and that committee has worked unceasingly to get the order rescinded."

Certainly we are not going to dissolve that committee and turn the whole project over to SODA. I dare say we have much more data pertinent to the problem than SODA has."

The checks were stolen in a burglary last April at the Granite Sheet Metal Co., after which Granite City police broke a burglary ring with the arrest of five persons. Davis was one of them.

If convicted in federal court they could be sentenced to 10 years in prison and/or fined \$10,000.

MORE ABOUT Area Tax

tion in local taxes was \$9,170, \$70, while the rail tax billing amounted to \$50,802, for a total of \$59,972.

On this basis, this year's local tax bill is an increase of \$67,444 over the 1966 extension collected last year, and the rail tax extension is an increase of \$3421 over last year's figure.

The railroad tax extension for all four townships of the area totals \$392,663, a rise of \$24,488 over last year's \$368,175. Although railroad valuations declined for the 1969 year, higher tax rates resulted in an increase in the amount of taxes for which the railroads will be billed. Railroad taxes are collected by the county treasurer's office and are not included on the township collector's tax books.

Hit-Run Damage

A parked car owned by T. T. Spearman, 1019 Bissell street, Venice, was damaged in the left rear when it was struck Tuesday night while parked in the 1200 block of Calhoun street.

The driver of the car fled the scene.

Bill Would Coordinate Planning, Legislation

A bill that would help coordinate area planning and legislative activity in the Madison-St. Clair county area was introduced in the Illinois Senate yesterday by State Sen. Merrill Otwein (R-Edwardsville).

The measure, Senator Otwein said, would create a group that would incorporate area needs and opportunities in legislation. It calls for appointment of four legislators and six public members by the Speaker of the House and the president of the Senate, and provides for a small staff.

An appropriation of \$25,000 for operation of the group is included, although committee members would serve without pay. The Illinois sector of the metropolitan area "is a unique area of the state in that it is a 'minicomm' of state problems, resources and opportunities," the senator said.

First responsibility of the new group would be to inventory resources and problems such as drainage, recreation, health, social problems, environmental preservation, mass transit, local government and all aspects of the quality of life as it affects area citizens, Otwein said.

Sen. Smith Condemns Anarchists on Campus

U.S. Sen. Ralph Tyler Smith has condemned the violent anarchists on American college campuses and streets and urged the majority to make it self heard.

Whenever the federal, state or local governments take steps to stop violence—either the violence of the communists in Southeast Asia or of the anarchists in Carbondale—the liberals say that we are guilty of repression, that we are running a police state," Smith said at a Crawford county Republican fund raising dinner in Robinson, Ill.

"And what of the violence of the communists and the anarchists? The liberals call that the people's revolution and social protest," Smith declared. "Well I think it's about time the majority of the people in this country started doing a little protesting of their own. 'I think it's about time we stopped trying to understand the bombers, the brick throwers and the flag burners and let them try to understand us for a while.'"

Venice Firemen Fight Three House Fires

Two vacant and condemned houses at 521 and 523 Gardner road, Venice, were destroyed by fire Monday evening. Firemen were called to the scene at 6:15 p.m. and remained until 7:45 p.m. Firemen said the fires apparently were started by boys who had been seen playing with matches.

Damage estimated at \$250 to the house and \$200 to the contents was caused by fire at a house at 1012 Douglas street, Venice, early Tuesday morning. Firemen said the one-story frame house was owned by Enrico Rossi, but was unoccupied at the time of the fire. Cause of the fire was undetermined.

Venice firemen were called to the Douglas street address at 1:10 a.m. and were at the scene for an hour.

Smith to Recognize Venice Act in Senate

U.S. Senator Ralph T. Smith, R-Alton, formerly of Granite City, was expected to introduce a resolution on the floor of the U.S. Senate today commending the city of Venice for initiating the policy of lowering all city flags to half staff upon the death of a serviceman in action, and proposing that the Venice tribute be adopted by communities on a nationwide basis.

The resolution also is believed to contain acknowledgment for Quad-City Airmen Post 51, the local veterans' organization which promoted the adoption of the Venice city council's action by other communities in Illinois.

The local Airmen post also arranged a recognition ceremony Feb. 28, at which National Airmen Commander Robert Gomulinski presented Veterans officials with a plaque and star.

Details concerning Sen. Smith's resolution were received yesterday by Steve Konovich, Post 51 public relations officer, in a telephone call from Don Girardy, Washington, D.C., personal counsel to Smith.

Konovich had advised Sen. Smith by letter and Press-Record accounts about the Venice ordinance and received a commendation in return for containing a personal commendation.

\$2.2 Million in Drugs Confiscated in 1969

Narcotic agents of the Illinois Bureau of Investigation seized marijuana, heroin and LSD valued at more than \$2.2 million during investigations and enforcement activities in 1969, according to a report by Supt. Mitchell Ware. He said 643,700 grams of marijuana were confiscated, compared to 48,859 grams in 1968, and that another 36,330 grams were purchased by state agents in investigative activities.

Wholesale value of the drugs confiscated was \$495,000, Ware said, noting that a cigarette containing 250 grams of marijuana sells for about \$1 on the streets and that Americans puff about \$100 million worth of marijuana annually. Sale and use of marijuana is, he said, fairly equal between Chicago and downstate areas.

According to the report, 355 grams of heroin were confiscated last year. Ware said that the narcotic division in 1968 listed 121 heroin addicts and 1913 marijuana users. He added that he believed 1969 figures will list many more known and suspected offenders in 1969 arrested nearly 625 more narcotic and drug law violators than in 1968.

Law to Exempt Pension Funds on Senate Floor

Defeat in the Illinois House of a bill that would exempt pension funds earned before the inception of the Illinois income tax does not end the move for tax relief in this direction, State Sen. Merrill Otwein (R-Edwardsville) reported today.

Sen. Otwein noted that a more comprehensive bill that would exempt the first \$50,000 in lump sum pensions and provident funds is still alive in the Senate and is expected to pass. Otwein said he is cosponsoring the bill which was introduced by Sen. Russell Arrington, and that the bill is now on the floor of the senate.

The same bill, Otwein said, would provide other relief. It makes income from municipal bonds exempt from the Illinois Tax, provides relief where income is earned out of the state, and simplifies the tax form itself from the current and complex four pages to one.

Commencement Program Tuesday at Venice HS

Commencement exercises will be held at 8 p.m. Tuesday for Venice high school seniors with graduation ceremonies set Wednesday for pupils at the elementary level. Assistant school supt. Robert N. Vickers told school board members Monday night.

All pupils in the Venice school district will attend their final day of classes next Thursday, including adult students in programs at Venice Lincoln Technical Center. Graduation exercises at the adult vocational training school will be conducted at 1:30 p.m. Monday, Duane K. Rankin, VLT administrator reported in a letter.

Baccalaureate services for Venice seniors are scheduled at 7:30 p.m. Sunday. A special recognition day is set for one week today.

Permission was granted by the board for Venice-Lincoln teaching personnel to participate May 28 the final Nextstep workshop, a series of programs sponsored by SIU-SW at the Venice facility.

Miss Mary Donna Satturo, 1229 Robin street, a 1969 graduate of SIU-SW, was hired to teach next year at the elementary level. She has taught for several months as a substitute in the Venice district.

Also hired as a grade school teacher was Miss Margaret Judith Reidelberger, 1240 Klein street, Venice, who will graduate this summer from Eastern Illinois University. Both new faculty members are Venice high school graduates.

The resignations of two teachers at Venice-Lincoln Technical Center were accepted. They are Mrs. Barbara A. Spelshausen, whose husband is being transferred by his employer to Seattle, Wash., and Miss Rebecca Fuller, who gave personal reasons.

The retirement of Gus Rehms, chief custodian for many years, was noted by the board, and maternity leave for the first semester of 1970-71 year was granted to Mrs. Mary S. Harper, business education teacher at the high school.

Braves Win Pair Over Grigsby, Prather in Round Robin Tourney

Coach John Toncoff's Coolidge junior high baseball Braves won the Granite City junior high round robin tournament beating Grigsby 2-1, Monday and Prather 4-1, Tuesday.

The Braves' concluding game has been postponed to 4 p.m. Monday when Grigsby plays Prather at Wilson park.

No walks were issued by neither Coolidge's Tim Burns nor Grigsby's Randy Sturdevant in Monday's extra-inning contest. Burns came away with a no-hitter fanning seven. Sturdevant whiffed eight and allowed six hits.

Both teams drew a run in the sixth. For the Braves, Coach Ashby doubled and Bob Fichte pushed Ashby home with a single. Ashby doubled in the eighth; he scored on an over-the-throw.

John Stanton pitched an eleven-strikeout, four-hit win over Prather. The Chiefs scored in the final frame on Dan Carney's double and Jim Burns single.

In the first, a single, a sacrifice and a single were good for the Braves initial scoring. Mike Mudd added a triple to drive in two more runs in the inning. Mudd singled to center field in the fifth and Brett Champion tripled him home.

Seven Trojan Gridders Given Athletic Grants

Park Boys Baseball League to Open New Season with Parade, Ceremony, Saturday

Seventy-three Granite City park district boys' baseball teams will have their annual parade and official season opening ceremonies Saturday.

The parade, joined by the Granite City high school marching band, will begin at 1 p.m. going north on Madison avenue from the fire house at 23rd street. It will turn west at 29th street, north onto State street and circle around Niedringhaus school to Wilson park diamond where ceremonies will be held.

Cougar Nine Enters District Tourney Today

Southern Illinois University-Southwestern campus' baseball Cougars were to meet Nichols State of Tribodaux, La., at 1 p.m. today in the Mid-East NCAA college division tournament at Normal, Ill.

Cougars are riding a 2-1 record; Nichols State carries a 29-10 log.

With a bid to the tournament secured, Cougar Coach Lee decided to play everyone on the squad against St. Louis University Monday and lost his gamble as the Bills won, 5-3, to end the season for both clubs.

St. Louis U., meanwhile, countered with its best, including the Bills' ace hurler John Kraft, who ran his pitching record to 10-1 by the victory over the Cougars.

Coach Lee did start his best hurler, Bruce Thompson, who couldn't hold the two-run lead his substitute teammates built for him in the leadoff inning. Thompson, still 6-0, gave up the Bills' first two runs on two hits while working a pair of innings. Next followed Don Poots, 5-0, who allowed a hit and a run to permit the Bills to take a short-lived 3-2 advantage in the two frames he toiled on the mound. Harvey Self, the Cougars' reliever, worked the fifth frame and put St. Louis down in order.

Steve Malone, 6-0, pitched one scoreless, hitless frame as SIU's attack tied the game, 3-3, on a double by John Good. It was then the luckless Don Rains' turn on the mound.

He gave up two runs on two hits, the unearned ones, as the Bills won the game. Rains lost all three of the Cougars' defeats, but in this last instance, as in two other cases, a fielder's error played a role in his downfall.

Dan Klutho, 1-0, hurled one scoreless frame, allowing two hits and a walk. The Bills, of course, didn't bat in their half of the ninth.

Hook's Show Power In 35 & Over Play

Hook's slugged Hunters Cove 16-5, Quad-City "A" beat Troy & Jones 6-3 and American Legion beat Jacobsmeyers 10-9 in the 35 and Over softball league at Wilson park Monday.

Bill Seago paced Hook's with two back-to-back homers. Teammate Jug Harrison crossed the plate four times while hitting three safeties. Cotton Singler homered for Hunter's during the team's only scoring inning.

Jim Black for American Legion beat Jacobsmeyers powered home runs.

Park board president Henry Gabriel will be toastmaster of the ceremonies. Rev. Eugene Copo, pastor, City Temple Assembly of God, will lead the invocation. Alderman Thomas Boker representing the city, will present remarks.

Players will be given four transistor radios and two tickets to a St. Louis Cardinal game determined by a draw from a hat.

A symbolic first play of the season will be performed with Billy Terrell of the Chamber of Commerce pitching, board of

education President Peter Metcalf batting. Fire Chief Earl Fronbarger catching and Rev. Cope as the home umpire.

Parade Marshall David Morgan, Police Chief Ronald Veier, park Vice-President Barry Loman, park treasurer John Mink and park secretary Frank Rea will play in the field along with other officials.

Depending on how long it takes for Metcalf to hit the ball, ceremonies are expected to be completed by 2 p.m. Boys' baseball games will follow.

Inter-City Action Puts Bellemore Sporting Here, Mercer on Road
Local Inter-city baseball league fans will have their first look at the loop's new member, Pierron of Highland, as it meets Bellemore Sporting at 2:30 p.m. Sunday at Wilson park.

At the same time, Mercer will visit Maryville, which is tied for the league lead, and co-leader East Alton will be at Collinsville.

Mercer, last Sunday, remained the only team to bow to Collinsville this season. The Mortemown won 9-6, Collinsville has lost to Highland and Maryville.

Also last Sunday, Maryville flattened Highland 7-0 and Bellemore Sporting lost to East Alton 6-1.

Circuit standings: Maryville and East Alton, 4-1; Mercer and Collinsville, 2-2; Highland, 1-3 and Bellemore Sporting, 0-4. Two rainouts have delayed a meeting with a Granite City team and Highland.

Mercer's pitching staff may have problems with the high scoring Maryville Braves. The Braves have tagged the plate 39 times in five outings, including a 20-4 pounding they gave Highland. Maryville scored less than five runs only in the 3-1 loss to East Alton.

Bellemore has an exhibition game set for Saturday at noon in Wilson park with the North Side Yanks of St. Louis county.

Head Coaching Staff Named at Roxana HS
Head coaching appointments have been made at Roxana high school to fill the vacancies left with the resignation of football coach Morris Tschannen.

Charles Raich Jr., head baseball coach, will add to his duties to take the top grid job. He has been an assistant football coach since 1963.

Larry Milazzo, a former Roxana student, will direct the wrestling coaching staff. He was a state qualifier during his prep days.

Shirley Barton, a native of Madison, has resigned as gymnastics coach at Edwardsville. He started as gymnastics mentor in 1966 and will be working in management for a food business.

BRUCE THOMPSON has paced Southern Illinois University-Southwestern pitchers with an undefeated record in six contests. Cougars have a 21-3 record going into the NCAA Mid-East tournament today at Normal.

Nine Games Carded For Trojan Grid Team

Madison high school will have an extra game on its football schedule next season, athletic director and grid coach Al Vander Haar has announced.

It will be the second consecutive season the Trojans will play nine instead of eight games.

The opener will be at O'Fallon. Other games will be in order: at Maplewood in St. Louis county, Highland here, at Triad at Washington near Peoria, Mater Dei of Breese here, Dupu here, Roxana here, with the season to end at Bethalto.

Fun-Sun, Kelly's Win

Fun & Sun, behind the wrestling of Kathy Crumley, beat Pagan Brick 5-3 in Mitchell girls softball Monday. Debbie Winnfield hurled for Kelly's to drub P. N. Hirsch 16-6 Tuesday.

Warriors Win Crown In Regional Tourney, Advance to Capitol

Granite City high school won the regional baseball tournament championship Wednesday by defeating host Wood River 5-2 after edging past Cahokia 3-2 in extra innings in a Tuesday game.

The local Warriors will play in the Springfield Griffin sectional tournament next week, facing the winner of tonight's Springfield regional title game between Taylorville and Springfield-Southeast. The game is scheduled for 4:15 p.m. Tuesday at the Lanphier ball park. The first game of the sectional on Monday will pit Stanton, winner of its own regional, against the winner of today's Jacksonville regional final between Virginia and Pittsfield. Wood River was first and last to score in regional finale, tallying in the fourth and seventh innings. But in between the separated Oiler runs Granite City tagged home five times in the fifth frame for the victory.

Bill Parks started the fifth frame with a double. Jeff Boyles singled to advance Parks to third base. Rich Schardan hit a game-tying RBI single and Jim Greenwald followed singled to right field. Gary Stitch and

Gary Willis gained bases on errors which also allowed the other runs to score.

Boyles earned the round victory, upping his personal record to 10-1. Ron Simpson relieved Boyles for the last two outs of the game.

Cahokia Thriller

Cahokia's Comanches put up their top hurler, John O'Connor, to face the Warriors. O'Connor nearly did the trick. The Comanches tallied an unearned run in each the second and fourth innings to show a 2-0 lead as Granite City came to bat in the bottom of the final inning of regulation play.

With one out, Stitch punched a single into short center field. Dennis Kunemann took over Stitch's running duty.

Willis powdered the ball into the dirt near third base. The third baseman threw to second but was too late. The throw to the fifth frame for the victory.

Bill Parks started the fifth frame with a double. Jeff Boyles singled to advance Parks to third base. Rich Schardan hit a game-tying RBI single and Jim Greenwald followed singled to right field. Gary Stitch and

Only us.

With Thunderbolt ignition. Now on all 1970 Mercury's (Breakerless Thunderbolt on 40-hp and up Mercurys; new Maker-Point Thunderbolt on 20- to 4-hp models). Thunderbolt zaps up to 40,000 volts to your spark plugs in microseconds... so fast, that voltage can't leak away. Together with Perma-Gap "lifetime" spark plugs, Thunderbolt does away with stubborn starts, rough idle and preignition common to ordinary outboards. You'll run clean on a 50:1 mixture of regular gas and oil, too! Thunderbolt: for the fastest, surest start in boating. Come see.

Drivers to Try Again At Speedway on Friday

Weather has allowed only one night of racing so far at the Tri-City Speedway this season. Last Friday's Capital Racing Association's (CRA) program here and Saturday's card at Jefferson City were rained out.

Clear skies are hoped for Friday when time trials are to begin at 7:30 p.m. and racing at 8:30 p.m.

With only one night of results Wib Spalding leads the track championship, standings with 260 points. He collected 170 of the points winning the feature event opening night.

240. Other top point collectors are: Dick Sutcliff 220, Chuck Woynt 170, Hank Harper 160, Jerry Camfield 140, Fies Atkins 130, Jim Moughan 130 and Duke DeKousa 100.

All the high point totalers, including Sutcliff from Topeka, Kan., are expected this Friday. Hal Futrel, whose car was involved in a serious collision here, plans to return with a different auto. Tom Bach's auto took the worst beating in the same collision. He reports he will probably be rebuilding his machine for another three weeks.

Jay Operman, who had sent a letter of intent to be here Friday was killed last Sunday in an accident on the straightaway of the track at Knoxville, Ia.

Moughan, who qualified for the Little 500 Saturday at Anderson, Ind., plans to crowd into his schedule Friday's races here.

Others who are expected to drive at Tri-City Speedway regularly will take a night off in preparation for an attempt at the Little 500's \$12,000 purse. They include Ronny Perkins, Jerry Ben Blandy, Chuck Lynch and Bobby Sitz.

Perkins is the 14th fastest qualifier for the Saturday race. Jerry Blundy, a top threat for the local track's championship, will start in the front row at Anderson, Ind. Perkins qualified in a car owned by Speedway Motors of Lincoln, Neb. Moughan will be driving Perkins' car.

Summer school for educationally-deprived students in the Venice school district in Grades 1 through 8 will begin Monday, June 15, continuing until July 31, Assistant Supt. Robert N. Vickers announced this week.

Head Start classes for pre-kindergarten pupils will be conducted during the same period, with registration taking place this week at the Venice grade school.

This year, bus transportation will be available for pupils attending summer school who reside more than 1½ miles from the school. Children living in Eagle Park, for example, will be eligible to ride the school bus, which will depart from that area about 8:30 a.m. daily.

Venice Firemen Called 3 Times in 20 Minutes

Three fire alarms within 20 minutes, one of them false, kept Venice firemen on the run late last night. The first alarm at 10:35 p.m. took firemen to the home of Robert Hadley, 1219 Calhoun street, where cans of a sewer cleaning substance had caught fire in the basement. There was no damage.

Two other alarms were received almost simultaneously at 10:55 p.m., one a false alarm to 413 Weaver street, and the other to the home of Nancy Miller, 1210 Douglas street, to extinguish a fire in a shed. Damage was minor in the shed fire, firemen said.

Two from Area Among Retirees At GC Steel Co.

Two Granite City men, Victor H. Koenig, 2538 Sheridan avenue, and Jack Bond, Rural Route One, are among four long-time employees of the Granite City Steel Co. who retired recently. Koenig has nearly 50 years continuous service with the company.

He began work at the Granite City Steel Co. as a junior clerk in the tin house in 1921. When he retired, he was chief clerk of the hot roll finishing department. He and his wife, Olga, have two daughters, one son and four grandchildren.

Bond ended his career at the steel plant as a shearmen in the steel fabricating department after 18 years service with the company. He did not announce his retirement plans.

SIU-SW Police Bitter Over Loss of Weapons

Some campus policemen at the Southern Illinois University-Southwestern campus are embittered and may resign over an administration order prohibiting the wearing of firearms during daylight hours, it was reported today.

One campus police officer said, "It's like taking one of our tools away," and said he plans to seek employment through the sheriff's office at Edwardsville. Several others indicated they also may resign because of the order.

Disarming of campus policemen was among recommendations by the SIU faculty senate submitted last week and which were approved by Chancellor John Rendleman.

Trades Council Backs SA Building Program

Delegates to the Tri-City Trades and Labor Council voted unanimously last night to endorse and participate in a capital fund drive for construction of a new Salvation Army building at 3321 Johnson road.

Representatives of 27 unions agreed to seek similar endorsements by their own respective union locals, and to take individual local action on contributions to the building fund. The action followed talks by Salvation Army Capt. Harold Thomas and Randall Robertson, Granite City lawyer, outlining plans for the financial drive which will permit the Salvation Army to retain operation of its present center at 19th street and Grand avenue as well as build and operate the new office building.

Edwin Reiske, president of the trades council, said the extent of financial participation in the program by the council will be determined at a meeting of the executive board on June 3.

City Wants ICC Hearing on RR Crossing Repairs

Sterner measures to force railroads to repair crossings in Granite City were authorized Monday night by Granite City council members.

City Atty. Leon Scroggins was instructed to request a hearing before the Illinois Commerce Commission in Springfield, and the city officials plan to attend and submit pictures of the holes in the streets at local crossings.

Council members decided it would be useless to write letters to the railroads again. Mayor Partney suggested the city go to court to force railroads to lower the grade level of the tracks to conform to the street.

"That will bring them around. They'll have to go miles out of town to begin lowering the tracks and it would cost a million dollars," the mayor commented.

Scroggins said he would have the petition ready by next week to seek the hearing before the ICC.

Free 'Job Wanted' Ads Offered Area Youths

Youths seeking summer employment may obtain free "jobs wanted" advertisements in the Press-Record in the next four issues of the paper.

Deadline for submission of the ads will be Thursday for the Monday editions and Monday for the Thursday editions. They will be accepted from youths aged 16 and over and are to be brought in person to the Press-Record business office, 1815 Delmar avenue.

The ads are to be limited to 25 words, including the name, address and telephone number, as well as the type of work sought and the skills offered.

Potential employers are urged to contact those who submit ads.

Copy will be accepted from 8:30 a.m. to 5 p.m. Mondays through Fridays and until noon Saturdays.

Sponsors of the program are the Press-Record and the youth committee of the Chamber of Commerce of the Tri-Cities.

Schooley Renamed GC Township Attorney

The reappointment of William Schooley as town attorney for Granite City township was approved Monday night by Granite City council members in their capacity as the town board of auditors.

The reappointment was submitted by Supervisor Nelson Hagnauer, whose selection of Ralph Curry, certified public accountant, to audit township funds and tax collections also was confirmed.

Township disbursements totaling \$11,118 were approved, including \$5292 for relief and \$3826 for town purposes.

Funeral arrangements are given in today's obituary column.

Kiwanis Honor Teachers With Service Banquet

Twelve teachers who have served in the Granite City school district for 35 or more years were honored at a special dinner party held Monday evening at the Rose Bowl, by the Kiwanis Club.

Those given recognition for their length of service included Virginia Segar, Mary Hopkins, Eleanor Waddington, Pearl Morgan, Eva Meier, Frances Lynch, Louise Decheimer, Harold Thomas, Elmer Jackson, Lawrence McCauley, Walter Klein and Grover Norwood.

Norman Hall, president, introduced the club officers and their wives, and the featured speaker for the evening, Roger Hunter from Wirth radio station.

Hunter traced the history of radio from 1920, when the first election results were broadcast, to the present day with the voices of the astronauts when they stepped on the moon, adding radio will observe its 50th anniversary this year.

A memento of the anniversary observance he presented each dinner guest with a record of the moon landing to keep as a replica of communications in June 1969.

He gave recorded excerpts of the major programs through the years which included Arthur Godfrey show, Major Bowes Amateur Hour, The Hit Parade, Jack Benny, situation comedy shows of Miss Brooks, Burns and Allen, Fred Allen, Amos and Andy and finally introduced some of the oldest soap operas which held the interest of many housewives during the years preceding television.

Sports programs held interest for many with the broadcasting of games, particularly baseball games, and at the time of the World Series.

Hunter noted the most dramatic radio announcement in a son of Mr. and Mrs. Lloyd Rice, 1540 Fifth street, Madison, was President Roosevelt's statement that Pearl Harbor was recently promoted to his present rank at Guantanamo Bay, Cuba, where he is stationed with the 11th Marine Division.

Each teacher received a gift from the club and the evening prizes went to Mrs. Phyllis McGillie and Mrs. Christine Verison who graduated from Madison high school and entered service in 1969.

Mr. Butler retired last December from the Granite City Army Depot where he had been employed for 27 years as an inspector.

He was a member of the Roman Catholic faith and held membership in the Disabled American Veterans.

Survivors include his wife, Mildred; two sons, Robert Donald Butler of Granite City and Michael Butler, U.S. Army stationed at Fort Campbell, Ky.; two brothers, William Carl Butler and Raymond Butler both of Granite City; and two grandchildren.

Funeral arrangements are given in today's obituary column.

Alassi's Artist Touch Takes Ribbons at Show

Shown in competition for the first time Sunday, Silver Maple Artist Touch, a black cocker spaniel, owned by Eugene L. Alassi, art education consultant for the Granite City school district, became a three-point major winner, capturing first in his class.

The dog earned the awards at the 61st annual Mississippi Valley All Breed Dog Show, held at Francis Field, Washington University. Fifty-eight cocker spaniels were entered in the largest-scale event.

The appropriately named animal later was shown with other classification winners and achieved additional blue ribbons in overall competition. A full major award is unusual for a dog making its debut appearance in a show ring, it was learned.

Nicknamed "Artie," the 11-month-old animal was handled in the show by Mrs. Ruth M. Krauchi, owner of Silver Maple Farms. Artist Touch is an offspring of 1968 National Dream Echo Magic and Champion Silver Maple Barbie Kay.

Major Corps Promotes Dennis Lee Rice.

Lance Cpl. Dennis Lee Rice, son of Mr. and Mrs. Lloyd Rice, 1540 Fifth street, Madison, was recently promoted to his present rank at Guantanamo Bay, Cuba, where he is stationed with the 11th Marine Division.

He was graduated from Madison high school and entered service in 1969.

SILVER MAPLE ARTIST TOUCH, an 11-month-old cocker spaniel owned by Eugene L. Alassi, art education consultant in the Granite City school system, became a three-point major winner Sunday in the Mississippi Valley 61st All Breed Dog Show at Washington University. Mrs. Ruth M. Krauchi, owner of Silver Maple Farms, showed the animal.

How to settle for less house than you had in mind.

There's really nothing to it. Just go out by yourself and look and look, till you have no time or energy to look any more. By then you'll be ready to take the first house that's almost right. Two bedrooms, instead of three. Or a not quite

big enough kitchen. How can you help it? Get one of our experts to help.

We're Realtors. We work in your best interest, because we're pledged to a strict code of ethics. We'll ask you what you need and what

you'd like. Then find it for you.

So when you're ready to make the biggest investment you're ever likely to make, doesn't it make sense to use our professional help?

GC Sewer Replacement Job Costs \$59,245 in 2 Weeks

The city bill list for two weeks, totaling \$118,022, including \$59,245 for the sewer replacement project in the Lynch area, is to be paid from the Emergency Preparedness fund.

Another major item was payment of \$45,804 to the St. Louis Union Trust Co. for the Nameoki area sanitary sewer system, including \$25,000 on the revenue bond issue principal, \$20,720 interest, and miscellaneous charges.

The OEP submitted a request for detailed accounting of expenses to date on the Lynch area project before any further funds are released, and the council began haggling with the mayor over who should do the job.

Mayor Partney replied the city clerk has taken over the duties of the office of the comptroller, which was abolished by the council on May 1.

Clerk on Vacation
It was noted that City Clerk Homer "Gill" Pendleton left for vacation on Friday, and it was suggested that the city engineer, city treasurer and mayor could assist the deputy

city clerk, Mrs. Virginia McLester, in preparing the report. Mrs. McLester pointed out the clerk's office at this time is busy selling city auto license stickers and keeping city records, and was advised by Alderman Nonn to "skip the meeting minutes for this report. We need the money."

Alderman Robertson added that he felt the mayor should assist since he had the records. Mayor Partney replied that all the records are in the clerk's office, "I'm not the finance officer of the city. You, Mr. Robertson, as Finance Committee chairman, could do it."

MFT Funds Delayed
Council members were advised by the state Revenue Department that because of an insufficient appropriation, the city's motor fuel tax allocation for April will be late. The amounts exceeded the appropriation set last year by the state legislature, and emergency action is expected during the current session.

A resolution transferring \$29,403 from the sales tax fund to four other departments and accounts was approved. Of the total, \$33,885 will go to maintenance of sewers, \$5563 to the Illinois Municipal Retirement fund, \$151 to the humane department and \$3.75 to the school crossing guards account.

Renewal of the city's Workmen Compensation Insurance policy with the Bond Men agency, St. Louis, was approved by an 8-to-5 vote, with Alderman Nonn objecting to a clause requiring physical examinations before hiring street department workers. "We have an agreement with the laborers and teamsters unions that physicals won't be necessary and I won't vote against organized labor," Nonn commented.

Along with the renewal, the council authorized selection of a safety committee for city employees as specified by the insurance firm.

Mayor Partney announced he had erred in his total figure for the fire department in a proposed budget for the current 1970-71 fiscal year. He said there was an oversight in checking time cards and that six were misplaced, requiring the department's budget to be increased by \$63,160 to \$369,880 for salaries, for a grand total of \$368,945; up \$29,860.

Meter Problems
Faced with a cost of \$12,900 to repair and replace damaged parking meters, the council instructed the Finance Committee to determine if the repairs to the 21-year-old meters should be made or if new meters should be purchased.

Police Chief Ronald Veizer said over 100 meters have been looted in recent weeks by junior high age youths who have secured keys. "We've picked up several, but we know they had enough duplicates made to spread them around. The problem is that the meters aren't just looted, they are being damaged and parts are being taken."

Approved by the council were \$23 expenses for City Atty. Scroggins to attend the May 3 Illinois Commerce Commission hearing on the proposed 47% rate boost for East St. Louis & Interurban Water Co. Also approved were expenses for Scroggins to attend the annual conference of the Illinois Traffic Court Commission at Bradley University, Peoria on June 9-10, with lodging and meals to be furnished.

SIU Board Approves Social Welfare Dept.

A department of social welfare, carved out of the existing department of sociology at the Carbondale campus, was approved Friday by the Southern Illinois University board of trustees.

President Delyte W. Morris explained that the sociology department now has some 150 students specializing in social welfare studies, which overburdens the existing department.

He recommended the division, and that permission be sought from the State Board of Higher Education to offer a bachelor's degree in social welfare.

A short list of appointments approved by the trustees included two full professors and three visiting professors for the Carbondale campus.

Named professor of journalism was Godwin C. Chu, a native of China who was educated in Taiwan and at Stanford University, and John L. Cornwall, holder of a PhD from Harvard University, who has taught at Tufts University, Mass., was appointed professor of economics.

Con-Con Approves GC Shop Students Win Separate Action 68 Awards at Exhibit On 18-Year Vote

The Illinois Constitutional convention has approved plans to submit the question of 18-year-old voting as a separate referendum proposal after first approving the lower voting age on first reading, according to Ray Johnson, Troy, delegate to the convention from this 33rd Senatorial district.

Johnson reported that the Suffrage and Amendments committee proposal had recommended age 21 as the voting requirement and that the 18-year-old voting age be voted upon separately when constitutional changes are presented to the people.

The convention voted 58 to 50 in favor of an amendment to the committee recommendation providing the voting age be fixed at 18, but then, by a vote of 78 to 28 voted that the 18-year-old voting question be submitted as a separate issue to the voters.

Propose Elections Board

The State Board of Elections having general supervision over the administration of all registration and election laws throughout the state was added to the Suffrage and Election proposal by a 71 to 30 vote.

This section was offered as an amendment to the proposal by five delegates. According to the provision the General Assembly shall determine the manner of election and compensation of the board, but no political party shall have a majority of members of the board.

The Legislative Committee has decided also to submit two separate reports to the convention on methods of reapportionment. Five committee members support the existing constitutional provisions, and five other committee members support another plan which would set up a bi-partisan 12-member commission with the power to reapportion.

50 YEARS AGO

MAY 21, 1920

Mrs. W. J. Biel, 2032 D street, was hostess to the Ladies Coterie. New officers installed were: president, Mrs. R. W. Biny; vice-president, Mrs. M. R. Sullivan; secretary, Mrs. Henry N. Ratz; and treasurer, Mrs. M. J. Biny.

An invention which will revolutionize the tin plate industry has been perfected by W. J. Davis, T. D. Hughes and Dan Hughes, all of Granite City. They say it means a savings of millions of dollars throughout the country. The device is a cold roll feeder. It includes a revolving suction fan and an endless chain which feeds tin plate from a truck to the fan and then into the rolls.

A man who served as secretary of a Communist society was forever denied citizenship at a naturalization hearing.

"It isn't that we desire to take any of the power away from the mayor, but we feel that the business of Granite City is too big a proposition to be controlled by one man," an alderman said after Mayor Bert Hodges had vetoed a Board of Local Improvements ordinance. The council refused to confirm appointments by the mayor.

STUDY DIRECT ELECTION OF STATE SCHOOL BOARD
To the Editor:
It's been a while since I have reported, and that is due to the heavy schedule of work, both in Committee, Research and in the field. I have been busy with work and debates on the floor of the Illinois Constitutional Convention.

It seems to have become fashionable for some of the news media to report on the fighting and the pull and tug of the ideas in the Convention as though this were something surprising and bad.

On the contrary, this pull and tug of conflicting ideas is healthy, as all the delegates are fighting for what they believe to be in the best interests of the people.

As you can imagine, the views of 116 different delegates from all over the state differ as to what is in the best interest of the people and all the views can't be right—I hope to help the other delegates see the light soon.

As you have probably read, the Convention has voted on first reading to allow for either election or appointment of a State Board of Education and appointment by that board of a state superintendent.

There will be a fight, which I believe will have a substantial chance of succeeding, to require direct election by the people of the people and all the views can't be right—I hope to help the other delegates see the light soon.

It seems to me that two levels of appointment, one by the board and then of the superintendent by the appointed board, would remove too far from the people the superintendent who administers the system affecting the lives and minds of the children of the people.

The Convention this week tentatively approved the proposal by the Revenue Committee, on which I sit, to require the establishment of the post of Auditor General. He would be appointed by and responsible to the legislature.

This man or woman would have tremendous power in auditing the expenditures made by the Executive Branch of government.

An example of his function would be to count the measure the state has paid for, tracks the concrete the state has been charged for by highway construction and, in general, to assure that the state was getting full value for money paid in its various programs.

I am excited about the concept and believe it can very soon lead to more efficient, responsive and economical government in Illinois.

The Revenue Committee is now locked in a very deep-rooted struggle as to the question of limitations on income tax, personal property tax, and real property tax. I suspect there will be at least one minority report on one or more of these questions.

Once the dust settles a little more, I will report further on those topics.

JOB GROWTH SEEN IF SASKY BECOMES MAYOR

To the Editor:
The residents of the city of Madison are fortunate indeed to have a man with the character and respectability of Mike Sasyk as a candidate for mayor. His progressive ability can be seen every day at the Arlington recreation area.

In a few short years, his dogged determination and hard work have turned this once barren swamp into a bustling community and play area for the entire Southwest Illinois district.

Men with the leadership capabilities of Sasyk are rare. They are assets to the entire region within which they reside.

The products of their ambition and imagination bear the kind of fruit that brings great rewards to their community and surrounding communities.

Men like Sasyk create the kind of atmosphere that causes industry to flourish and grow. County, state and federal officials realize the importance of smooth government at lower levels and are responsive to the requests which are justified.

Struggling communities with lackadaisical leadership show the results of the lack of a powerful community with strong leaders. Our entire area would benefit by the election of Mike Sasyk.

GRANITE CITY MAN

SPACE PROGRAM TOO COSTLY TO TAXPAYERS

To the Editor:
I am glad to live in a country like America where people can speak out and express themselves. I am not sure the price the American taxpayer is paying.

Millions of dollars for a few pounds of rocks from the moon is the highest price that has ever faced the American taxpayer.

The whole outer space program has only one purpose that could be of any value to the people and that is strictly military and nothing more.

Too much time and too many good American dollars are being wasted in the space program. There are other programs far more important to the American people, such as the program that will stop hunger and water and air pollution, and better health programs that poor people can afford to pay.

These will do more for the American people than the space program. I am not sure the price the American taxpayer is paying.

TAXPAYERS WANT CAMPUS HOODLUMS PROSECUTED

To the Editor:
Taxpayers aren't just angry—they're really mad!

With campus riots, disorder and violence, the responsible citizens (and taxpayers) of our state are frankly saying that they have had enough.

At least the taxpayers know that they paid for the facilities, and attempts by serious students to study are being thwarted. Sure, they're willing to put up with peaceful demonstrations, but this violence... enough is now.

They have said this to me in strong language the last few days by phone, by mail and by stamping on my doorstep.

At a caucus on the subject in Springfield, some early conclusions were:

Colleges were created to educate our youth to responsible citizenship and productive lives. College students are a privilege, earned by responsible students in facilities owned by the people.

The great majority of students and faculty are responsible and productive, but their efforts are being hampered by the unrest and violence of the few.

Students are being led by a few provocateurs, radicals, profiting from the chaos wherever they can find it. They are being led by just a few leaders, sometimes students but often outsiders or even foreign agents skilled at arousing emotions.

There are indications that money and leadership are being imported into the campuses in deliberate attempts to incite violence. Campuses are a logical prime target for those who would subvert the future of the young minds under the guise of idealism in an avowed strategy of sedition.

Peace is our common objective despite accusations to the contrary and busy talk of a protest against war and violence in

that this would entail. A person can get into enough trouble without a carbon copy of himself wandering around to create more. Especially if he's carrying your credit card.

Genetic engineering, of course, offers many possibilities for the good of mankind, such as the elimination of inherited diseases. But, like the unleashing of the power of the atom, its application can only be as good as the intentions of the men who put it to use.

Being Swept Up in a Cause Does Not Grant The Right to Do Violence to Get Our Way

To serve a cause can be an ennobling activity, but cannot justify extreme, illegal conduct, a point which is being underscored by U.S. campus developments. The motivation of the individual doing violent harm, the "greater good" he seeks to achieve, does not give him a special right, a blanket waiver of his normal responsibilities as a citizen.

This thought comes to mind in regard to the upcoming trial of men charged with attempted murder in the shooting of three truck drivers from an interstate overpass in Madison county. Our comment does not refer to present or future specific defendants, whose guilt or innocence will have to be determined by the evidence and testimony.

A crime did occur and it is important to consider the act itself, not the thought processes of whoever may have done it, not the torturous logic utilized by somebody to convince himself that he should fire a gun at highway vehicles.

If we were to decide every disagreement by violence, we would have a backward march in the march of human progress. Just such a reversal is what lawbreakers are calling down upon their own and others' heads — survival of the fittest in the sense of the law, personally and constantly defended himself in an ending reign of terror and injustice.

The hypocrisy is as self-defeating as the illogic. Whoever blows a bomb at a building goes sniping, once he has gained his way, hopes the public then will observe all the niceties in its dealings with him. His outlook is so confused that he underestimates the rule of law, and simultaneously under-mining the laws which daily protect him in so many ways.

Violence does undermine civilized life, whose collapse would render meaningless the very causes prompting the violence.

Punishment must be meted out to those found guilty of crimes, regardless of "why" the crimes were committed. The law must get through: America is not going to give up its two-century heritage of freedom and due process of law for temporary goals, however tempting they may be. To allow violence to go unpunished would open the door to loss of all the positive values of life in a democracy.

Greenery for a Community 'Entrance'

Planting of greenery to screen an auto salvage yard from view is another in a highly commendable series of being taken to enhance the visual attractiveness of the Quod-City.

The latest location, Missouri avenue, is an excellent choice because it is one of the first vistas confronting visitors to this community. First impressions are important, and the Missouri avenue entrance is one of the earliest impressions for many.

Infantryman and later as a more than a thousand people who have no lockers or other scorn or ridicule for my opinions. I respect them and ask that they be looked upon with dignity.

Let us all accord to these persons the dignity and respect which they deserve. The end of this political campaign should not be determined by bitterness and animosity. I ask all Madisonians who write letters to the Editor of the newspaper or any other newspaper about the forthcoming election to permit the publication of their names. Let us all personally stand behind our public statements.

Very truly,

MENTAL HOSPITALS LACK EQUIPMENT, TRAINING
To the Editor:
For the past few years I have been working with a project giving legal aid to patients in Illinois mental hospitals. I have made dozens of trips to several of our state hospitals and observed conditions closely.

In general, the people who staff our hospitals are hard working and vitally interested in the patients' welfare, but there is much to be done. In the chronic wards of one of our larger hospitals there are

But, most distressing, is the fact that most of the patients in these chronic wards spend their days doing nothing. They sit, they lie on the floor; they stare into space.

I am not authority on treating the mentally ill. However, I have seen films of methods of treatment in which chronically ill patients are kept in a room, successively spending their time in productive pursuits.

I asked an administrator of the hospital why the staff didn't try some of the things that are being done so successfully in other parts of the country and in a few places in ours.

He said that there was no time to try the staff to learn these new methods—that the hospital had asked for more programs but been refused.

In view of the crowding in some of our large hospitals and of the lack of money for simple equipment for the patients, and especially, in view of the lack of money for training the staff, it seems to me that a new method of treatment for the people of this state deserve attention.

How can the administration cut the budget of the Department of Mental Health knowing that there is so much to be done for the mentally ill?

How could the Department NOT have spent the money it has received to do what there was such a great, unfilled need?

WHAT ARE VITAMINS, REALLY?

Are vitamins nourishing? That's a tricky question. Strictly speaking, vitamins are not nourishing in the sense that you can live on them alone. It is important for people to remember this, especially those who are inclined to buy bottles of vitamin pills and think they are going to be just dandy with them.

For vitamins are nutrients without calories. They furnish no energy. Nor do they supply any building material for the body, as do carbohydrates and protein. Still, the body requires vitamins because they are regulators of body processes. Perhaps one should consider vitamins as part of the "management" team of the body.

Vitamins, then, are necessary for the vitality of all body tissues.

Discovery Of Vitamins
Vitamins have always been in our foods, long before they were recognized as such. The discovery of vitamin A in 1913 by Dr. E. V. McCollum is considered the beginning of modern nutrition science. Dr. McCollum made his discovery while studying the effects of milk in the diets of white rats. Dr. McCollum also discovered vitamin D and was instrumental in helping the dairy industry set up National Dairy Council as a public service.

A Balanced Diet
Today, we hear almost too much about vitamins—particularly the approach of prescribing for your own needs. My advice is that a balanced diet from a wide variety of foods, such as the four food groups (the meat and milk products groups, fruits and vegetables, breads and cereals), will furnish all the vitamins you need. And you'll get them in the most pleasant way possible.

Many More Young Workers by 1980
By GEOFFREY H. MOORE
Commissioner of Labor Statistics

The profile of an economy with 100 million workers—producing 60% more goods and services for Americans in 1980 than in 1969—is presented in new projections.

These projections—covering productivity, gross national product, employment and labor force—were prepared by the Bureau of Economic Analysis, a part of the Labor Department to help industry, government and educational communities plan for the manpower challenge in the decade ahead.

Among the findings are: Half of growth in the labor force will be among young workers, age 25-34. The Negro labor force will increase by one-third.

Occupational employment will continue a long-term shift towards the white-collar occupations and those requiring more education and training.

Golf Advice—Reduce Backswing

(American Institute of Physics)
You may not be able to live with a long, straight drive, but now—thanks to modern physics—at least you'll know why.

According to Dr. Theodore Jorgensen, Jr., of the University of Nebraska in Lincoln, you may be using far too much backswing, and flexing your wrists all wrong.

Venice School Calendar For 1970-71 Adopted

A tentative calendar for the 1970-71 school year was adopted Monday evening by the Venice school board. The new schedule will be submitted to Madison County Supt. of Schools Wilbur R. L. Trimpe for formal approval.

Venice pupils are to return to school after the 1970 summer vacation on Tuesday, Aug. 25, and next year's school activities will end May 28.

Venice Assistant School Supt. Robert N. Vickers reported that a total of 185 school days will be recorded, including 96 teaching days and one institute day in the first semester, and 88 teaching days and two institute days in the second semester.

The 182-day calendar exceeds state requirements for mandatory school attendance by five days, enabling three dates in December and two in April to be declared holidays for students if not needed for snow days or other emergencies.

After classes resume Tuesday, Aug. 25, Venice pupils will be dismissed for Labor Day on Sept. 7, Columbus Day, Oct. 12, Veterans' Day, Nov. 11 and Thanksgiving, Nov. 26-27.

School will be dismissed for Christmas vacation Dec. 23, with students returning to classes on Dec. 28, and vacationing again from Dec. 29 through Jan. 3. The Christmas holiday schedule is subject to revision, it was explained.

On Jan. 15, a Dr. Martin Luther King Human Relations Workshop is scheduled. The first semester is to end Jan. 22. Pupils will be dismissed for Christmas vacation Dec. 23, from classes on Monday, Feb. 2, Lincoln's Birthday, March 2, County Institute, April 9, Good Friday, and April 30, and six-week period (31 days).

The tentative 1970-71 calendar lists the following dates:

Aug. 25—First day of school (school dismissed); Jan. 1—New Year's Day (school dismissed); Jan. 4—First day of school (school dismissed); Jan. 11—Lincoln's Birthday (school dismissed); Jan. 18—County Institute (school dismissed); Jan. 25—End of first six-week period (31 days); Feb. 2—Lincoln's Birthday (school dismissed); Feb. 9—County Institute (school dismissed); Feb. 16—End of second six-week period (31 days); Feb. 23—County Institute (school dismissed); Feb. 30—End of third six-week period (31 days); March 9—County Institute (school dismissed); March 16—End of fourth six-week period (31 days); March 23—County Institute (school dismissed); March 30—End of fifth six-week period (31 days); April 6—County Institute (school dismissed); April 13—End of sixth six-week period (31 days); April 20—County Institute (school dismissed); April 27—End of seventh six-week period (31 days); May 4—County Institute (school dismissed); May 11—End of eighth six-week period (31 days); May 18—County Institute (school dismissed); May 25—End of ninth six-week period (31 days); May 31—End of school year.

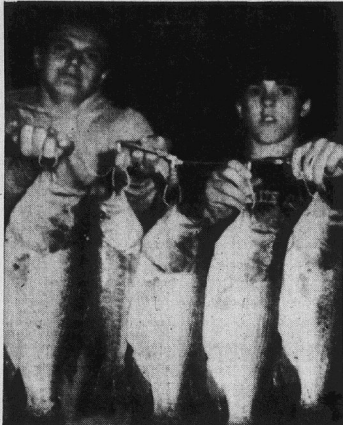

St. Mark's Youths Seek Peace through Prayers

Deciding that the way to peace must be by prayer and self-denial, not by obscenities and self-satisfaction, the youth of St. Mark's Church, Venice, led older members of the church in prayers for peace Sunday evening.

They conducted a "Living Rosary" ceremony before the outdoor shrine dedicated to Our Lady of Fatima. The shrine was built by parishioners with the aid of Tri-City Knights of Columbus Council 1088 in 1951 and has continued as a beacon of hope to area residents.

The theme of the service was that God will give peace to those who desire it, to those who earn it by living according to God's plan, and that nowhere does the plan of God call for tearing down the Ten Commandments.

Prayers for peace were held for the Vietnam War, the Middle East, and the Cuban Missile Crisis. The service was held at 7 p.m. and lasted one hour.

Student Writes Review on Sternberg Talk on Lincoln

Gene Sternberg, local contractor and Lincolniana expert, spoke to 130 Black students at Grigsby junior high school, recently, giving a commentary on the life of Abraham Lincoln from infancy to the time of his death.

The idea for the program took form after the classes were shown a film on the problems confronting a president during the Civil War, and thus asked Sternberg to relate his information on Lincoln as a child, young man, husband and father, as well as a public and political figure.

After the speech the students were asked to give their impression of Sternberg's talk, and the following is the text of a composition written by Linda Chastain.

"Mr. Gene Sternberg on Abraham Lincoln"

As a Lincoln "nut," as Sternberg calls himself, Mr. Sternberg is an expert speaker about Lincoln. He started with Lincoln's life as a child and his mentioning his birth, surroundings and family. He also describes Lincoln's work and education and tells of each town in which Lincoln lived and how long in each place.

He retells his life well, including interesting facts such as: the death of the former president's mother in detail including why; his zeal for learning and reading; his job as a flat boat and his steering skill; his great size and his wonderful sense of humor; his honest way and first jobs.

Mr. Sternberg makes us aware of Lincoln's cleverness, honesty and sense of humor and

great love of people and his ideas about slavery.

Lincoln according to Mr. Sternberg was interested in law and politics. His candidacy for president, and his preparation for the presidency were brought out. Mr. Sternberg has a wonderful knowledge of Lincoln as he tells of Lincoln's friends, but for his speech I can tell Lincoln's qualities, good and bad. Apparently his good qualities greatly outnumbered the bad, and he had few enemies.

The guest speaker relates all issues we are studying, slavery, compromises, John Brown, and Lincoln's thoughts on each. He gives us a greater understanding of Lincoln and his life, views, debate with Douglas, education, ability, zest for learning, knowledge, disappointments and most of all his love for people and his honesty.

"The Civil War"—Mr. Sternberg brings out Lincoln's feelings, beliefs and views expertly on all issues of the Civil War, especially Lincoln's foresight. He mentions the great battles and Grant, Custer and Pickett's charge and the "18" of Gettysburg and the Gettysburg Address. He brings out the points well and in detail.

Mr. Sternberg compared the times now and then in describing the assassination and death and some "ifs" of the death, as well as the manhunt for John Wilkes Booth. He tells of his reasons for becoming a Lincoln "nut," and gives us the understanding of Lincoln's greatness, honesty, cleverness and most of all his love for his family, life, and people.

He tells us of many good books about Lincoln and his beliefs and mentions many times that Lincoln was a "product of his time," and to me, Mr. Sternberg is definitely a product of our times and an expert speaker. This was truly a learning experience and held my interest greatly.

In appreciation for the volume of information on Lincoln another student, Martha Ren, wrote a poem to thank Mr. Sternberg for the special talk.

SIU-SW Groups to Sing with Symphony

One of the major choral and orchestral works of the 19th century will be heard at Powell Symphony Hall, Friday, May 22, at 1:30 p.m. and Saturday, May 23 at 8:30 p.m., as four distinguished soloists and the choruses of SIU-SW campus, join the St. Louis Symphony Orchestra in a performance of Giuseppe Verdi's Requiem Mass in memory of Alessandro Manzoni.

Also on the program are Gwendolyn Killebrew, Mezzo-soprano, a member of the Metropolitan Opera Studio whose voice has been called "graceful, poignantly expressive, warm and fluid" and Nicholas Di Virgilio, tenor, who made his debut in 1963 and earned unanimous acclaim.

Bass Arberian returns to the Powell Hall stage after earning critics' praise here during the 1968 season. Maestro Walter Susskind will conduct.

The two hundred voices of the combined choral groups of SIU-SW have been trained by Nancy Vang, acting director, and Jane Viessemeyer, assistant. The choruses most recently appeared with the St. Louis Symphony Orchestra at last summer's Mississippi River Festival.

Checkerboarders Host Directors From Birmingham

The Checkerboard Squares entertained the directors of the Teen Twirlers of Birmingham, Ala., Mr. and Mrs. Harry Henderson, and their daughter and son-in-law, at the Bob Boy home, 39 Villa drive, Friday and Saturday.

Views and ideas concerning youth in square dancing were exchanged, and a discussions were held concerning the two groups co-hosting a national festival, with hopes of making it an annual event.

The Checkerboards are preparing a busy summer schedule. Though they have been invited to participate in several state and national conventions and festivals, the group has chosen to make several short trips in lieu of a long tour.

Performances will be held at the Illinois School for the Deaf at MacArthur, Chicago at Jacksonville on June 12-13; Heart of America Festival, Camdenton, Mo., on June 18-20; Blue and Crystal City, Mo., July 3; Lions celebration, Madison, July 4; annual floor show on the Admiral, July 18; and homecoming, Polish National Catholic Church, Madison, Aug. 12.

August also will include open house for Midshipman Glenn Barrowman of the U.S. Naval Academy, a moonlight excursion and formal dance on the Admiral to climax the complete tour.

Students Wait 5 Hours To Address SIU Board

By VALERIE EVENDEN

Statements made by students from Carbondale and Southern Illinois University board of trustees Friday ranged from outright demands to impassioned pleas. Some were delivered in conciliatory tones; others proscribed a lack of action would result in racial war and one spoke of genocide.

The student speakers represented both ends of the spectrum. Their appearance was equally as diverse and did not necessarily reflect their specific viewpoint, as many non-students would suspect. Neither did the length of hair.

Among the 75 or so students jammed in SIU-SW's International Room, where trustees held their regular business sessions in alternate months, some were nattily dressed in business suits, complete with vests and ties. Others sported cutoffs, sweatshirts, shades and thong necklaces from which carved wooden objects dangled. Their hair was long, short, bushy, moderately cut and styled. Some were bearded, moustached and others clean shaven.

A sharply-dressed coed, representing the Student Coalition, deferred her position on the speaking agenda to a member of the Black Student's Association, permitting the BSA spokesman to precede her in addressing the board.

Student groups were not isolated. They intermingled, caucused, wrote and re-wrote speeches they intended to present; discussed the issues in sotto tones and caucused again in groups of four or five while waiting five hours for SIU trustees to emerge from a closed meeting with Gov. Richard B. Ogilvie.

At this point, everything was orderly. Fred Bird, a member of Gov. Ogilvie's staff, who remained in the International Room, loosened his tie and finally removed it.

Dr. Delyte W. Morris, SIU president, and Dr. John D. Rendleman, SIU-SW chancellor, disappeared briefly into the closed door meeting with trustees. But for the most part, the SIU administrators sat and waited

along with the students and abused the time limitation.

SIU-Carbondale Chancellor Robert W. MacVicar departed hurriedly for the Carbondale campus at 11:15 a.m., when official word was received concerning an explosion in an off-campus dwelling which injured three students.

A velvet rope lay on the carpeted hallway floor. The only tangible barrier between an overflow crowd of 200-plus students who could not be accommodated in the meeting room. Security forces were unobtrusive. A public address system was quickly installed to allow those on the mezzanine to hear the proceedings.

A few remarks reflecting the board member's ancestry were overheard when it was believed those in the closed door executive session were adjourning for lunch at 12:30 p.m., without announcing a decision.

Shortly after 2 p.m., the open meeting was resumed and student groups were permitted to address the trustees, each speaker for a three-minute period. Several ran considerably longer, but few deliberately

abused the time limitation.

One man, older than most students in the room, said he was a veteran, supported the war and questioned whether some of the student protesters belonged in a university. He did not agree the school should be closed, but urged that "we gather and talk as we are doing today."

Charles Webb of Cahokia, a senior at Carbondale who had met earlier with Gov. Ogilvie and the trustees in closed session, demanded the board close the Carbondale campus and deplored the fact that "students here (SIU-SW) don't know what is happening in Carbondale."

He told the trustees, "You are educated men who can respond to what is taking place all over our country... there is a breakdown in confidence. How can students identify with an institution when its leaders stand up and talk about peace, democracy and freedom and order men into town with clubs and guns."

Webb said, "It is time for you gentlemen to deal with the is-

suess." He referred to racism, the war in Vietnam and campus violence, including the deaths of four students at Kent State University. He urged the removal of the Vietnam Studies Center and the Reserved Officers Training Corps from the Carbondale campus.

Stanford Scott, a member of the Black Students Association at SIU-Southwestern, said the BSA wanted a firm commitment by the trustees to end racism on the SIU-SW campus.

Vernon Calls of East St. Louis, BSA president at the local campus, told the trustees that the nation is "moving toward racial war. What we are doing here is promoting humanism." He committed that students at SIU-SW did not want the campus closed, but "do want a relevant education."

Frank Scaglione of Collinsville, representing the Students for Positive Reaction at SIU-SW, said "his group wanted the university to remain open; to keep outsiders off campus; to work with black student groups toward ending discrimination and thereby prevent confronta-

tions. Following the speakers, a move was made by the trustees to continue with the regular agenda, before commenting on remarks of the students or releasing a decision on the status of the Carbondale campus.

Initially, a shocked silence and aura of disbelief pervaded the room as many students apparently felt their rhetoric was being ignored. The silence soon erupted into hostility.

A short time later, however, the board adjourned for an additional 30-minute executive meeting then announced the SIU-Carbondale campus would remain closed for the duration of the spring quarter.

City Finds Way to 'Stretch' Dollar for Sidewalk Repairs

A new program of sidewalk repairs, aimed at reducing the number of injury claims against the city, is to be undertaken by the Granite City street department as authorized Monday night by the city council.

Holes and cracks are to be filled with asphalt rather than a complete replacement of the concrete walk. In extreme, dangerous cases, replacement will be done.

The program was outlined by Alderman Nomm, new chairman of the Street and Alley committee, who said the proposed budgeting of \$15,000 for sidewalk repairs could be stretched farther with such work. "We have about \$30,000 to \$40,000 in claims filed against the city each year, resulting from sidewalk falls," Nomm said.

"There won't be any replacement of an entire block of sidewalk this year," he added.

Sewer Dept. Planned

Nomm also suggested that the Granite City PRESS-RECORD Page 44 Thurs., May 21, 1970

city prepare for establishment of a sewer department within the street department late this summer, and authorization was given to seek bids for bucketing equipment for sewer cleaning.

"We need to upgrade the street department equipment," Nomm added, suggesting the city also consider purchase of equipment to clean catchbasins and to proceed with the purchase of a street sweeper on a bid of \$12,995 submitted by O. B. Avery Co., St. Louis. The bid was opened in January and held in abeyance after being accepted. The firm advised the council by letter Monday night that it would wait for payment until new tax money is collected.

The firm also had submitted a bid for a road grader, but Nomm said he used graders at the Army Depot here and Scott Air Force Base are to be inspected before any purchase of a new machine.

He asked that the city painter be permitted to repaint the city trucks to keep up appearances, and suggested the council

again to hire a city mechanic to maintain vehicles. No action was taken on either matter.

Approval was given for the annual call for bids for cutting weeds, and authorization was given for the superintendent of streets to handle the purchase of chemicals for insect spraying. Alderman Dallas, chairman of the Sanitation committee, said the council should consider rehiring a private contractor to aid the city in spraying for insects.

Police were asked by Alderman Boker to arrest anyone dumping grass or other debris in the Wabash avenue parkway, and Alderman Morten called for "no dumping" signs to be posted along the old Illinois Terminal Railroad right-of-way through East Granite and the Community Heights area.

Alderman Rutledge asked police to determine if the old ITR right-of-way along Kirkpatrick Homes is being used for "a parking lot and repair garage."

He added that the alleyway is being used as a street, and that City Building Inspector Orville Deltour to have the trailer removed. He is to be aided by the city attorney.

City law requires approving signatures by 75% of the residents within 300 feet of the trailer. Angle said he had that number, but another petition was presented by the delegation, claiming more signatures.

The matter was turned over to City Building Inspector Orville Deltour to have the trailer removed. He is to be aided by the city attorney.
